

be flawless...  
be the only

theonlyskincare™

theonlyskincare™

**The Only Skincare™** is a simple, revolutionary approach to healthy skin that eliminates the need for complicated, time consuming beauty regimens, and efficiently delivers essential, nutrient rich ingredients to your face and body. **The Only Wash™**, **The Only Lotion™**, and **The Only Makeup™** visibly reduce fine lines and wrinkles, nourish the skin and promote cell renewal. Each application hydrates, firms and gently exfoliates to uncover vibrant, beautiful skin.

our story

We have always been devoted to our family and our careers. As our lives and professions grew, we also developed a passion for flawless skin. From back in the days when Rose was a teenager helping out in the salon, we sought and gave beauty tips to our clients and each other. Helping people look and feel beautiful was always the goal.

Rose went on to acting, while my salon business continued to grow, but we always focused on keeping the family close while continuing the quest to find beauty products for flawless skin. After years of professional and personal experience with tons of beauty products (face creams, eye creams, beauty serums, stuff for your neck, hands and yes, even special creams for the decollete) these expensive and time consuming beauty regimes began getting us down. Our lives had gotten too busy for all of this. What we wished for were affordable, practical solutions without compromising luxury or quality.

Having been immersed in the beauty business, we were familiar with what really worked on the skin. We began to seek out innovative chemists to help combine our knowledge into an easy to use delivery system.

What put our formula over the top was discovered right in our own backyard, Soap Lake! Located deep within our own Washington State, it contains time-proven minerals that restore and nourish the skin! Our chemist quickly synthesized the mineral formula in the lab and filed a patent on it, so amazing are its properties. This is just part of the unique chemistry behind our answer for a simple and effective system of beauty care.

We have created one wash for the face and the body that does everything. **THE ONLY WASH** removes makeup and cleanses the body. Full of hydrating and anti-aging properties. Our powerhouse and pride and joy, **THE ONLY LOTION**, contains all the hydrating and anti-aging properties we wanted for the face, especially around our eyes, and all over body beauty. Just two products that do it all! We didn't stop there. We love our makeup right? We made ours with skincare in mind; **THE ONLY MAKEUP** is a tinted moisturizer with hydrating and anti-aging properties in time release. It is beautiful, comes in six different shades and goes on like a dream. So, if you want luxurious, movie star skin with the least amount of products, **THE ONLY SKINCARE** is for you. So, go ahead... be flawless... be **THE ONLY**

xoxo,
